FCC Compliance: Anti-Bribery & Anti-Corruption Procedure

FIDI's Mission Statement regarding Bribery and Corruption is clear;

Bribery and corruption have been identified as one of the key factors that limit growth and contribute to inequality. By wrongly benefiting certain parties it limits competition, damages innovation and corrupts societies, hence it is considered highly unethical and therefore against FIDI values.

Not only is bribery and corruption wholly contrary to the FIDI values, it is also illegal. Bribery and corruption laws expect that companies will have proactive measures in place to prevent and detect corrupt practice.

In alignment with FIDI's mission statement regarding bribery and corruption, the FCC wants to underline the significant importance of the ethical conduct of their actions related to accommodating FAIM Compliance Procedures for Affiliates and First-Time Applicants making therefore a clear statement by signing the FIDI Anti-Bribery and Anti-Corruption Charter.
